

- Home to 250,000 physician schedules
- Fast & mobile for physicians
- Everything an Enterprise needs

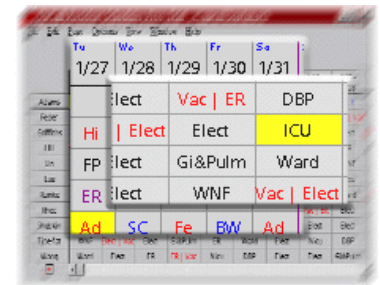

## What is AMiON?

Amion helps groups, hospitals and healthcare systems create and manage accurate, fair provider schedules. Trusted by over 250,000 providers and 10,000 physician groups and residency programs, Amion saves hours in schedule building and makes ongoing maintenance easy. With a focus on delivering quality scheduling and secure messaging solutions that are affordable and scalable, Amion is your organization’s trusted scheduling partner.

## How do I build schedules?

Enter services and staff. Set up work preferences, requests, and staffing rules. Amion lists who's available for each call, shift, and clinic slot.

Run the Autoscheduler or enter staff with a mouse click. Amion flags shift conflicts and highlights people who need more or fewer shifts. Apply the template tool for schedules that repeat. In a few hours, you'll complete your first schedule!

At Amion.com log in to: > view schedules > look up who's on call > create personal calendars > text or page a physician on call > submit special requests > swap shifts

## What schedules & reports can AMiON create?

- > On-call schedules > Attending call schedules > Call and shift tallies
- > Rotation schedules > Nurse shift schedules > Service- & clinic-staffing reports > Clinic schedules > ER shift schedules > Vacation/sick days > Extra pay reports > Duty-hour reports > Enterprise-wide views > Blast-paging lists > Optional SSO/AD interface > API reports > Switchboard views

## How do I order AMiON?

Head to Amion.com to sign up for a license for your group or residency at \$399/year. Includes support, Amion’s mobile app and secure messaging. Ask about Amion Enterprise+ for site-wide deployment for Healthcare organizations to meet compliance, security, integration and support requirements. For licensing information or a quote, contact [aline@amion.com](mailto:aline@amion.com).
